

Animal Gift of Spirit Workshop

The information to be shared in the **Animal Gift of Spirit Workshop** was brought forth in order to offer a way in which you could use Dr. Chad's basic techniques to enhance your own healing experience as well as to help your beloved pets.

Message from Dr. Chad: "We are moving into a time where more people are awakening to their true Selves and finding a desire to be in an expanded arena of service to others as well as to their beloved pets. There is a wake-up call stirring within many of us prompting us to move to new levels of empowerment within our own Being. I have created this workshop in order to share with you my personal methods to help you to be present with your energy and to have trust and confidence to help your pets in whatever situation and circumstance."

Workshop Summary: This workshop is designed to first give a basic foundation to individuals who are seeking to understand one's innate energy and how you can apply this awareness to your beloved pets. You will learn how to connect with their energy and be able to help them work through any health challenges. You will be given guidance and a hands on approach to help your pets connect with the "magic" of healing that resides innately in each living being. The day will be filled with talks by Dr. Chad, multiple healing/ energy exercises and practical applications that can be performed on your pets.

In this workshop, you will learn:

- How to first feel and flow your own energy from the palms of your hands.
- Centering – finding your balance point so that you may be open and read to work on your pet.
- Scanning – a technique used to receive energetic information from your pet's body.
- B.E.S.T. – a modified version of a chiropractic technique used to seal the energies and create a balanced energy field around your pet.
- How to use Ho'o'ponopono to clear and balance energy.
- New skills on how to listen and be receptive in a way that enhances awareness of the emotional connection you have to yourself and to your animal.
- How to find rapport and establish a connection with your pet in a space of love and respect.
- Specific contacts – direct correlations
- Private 30 min. consultation scheduled later for your pet
